<b>HEARING:</b>	This position requires the perception of sounds at normal range, including the reception of oral communication shared at interdisciplinary team meetings and oral requests from patients.	<input checked="" type="checkbox"/> Constant <input type="checkbox"/> Frequent <input type="checkbox"/> Occasional
<b>REPETITIVE MOTIONS:</b>	This position requires substantial movements (motion) of the wrists, hands, and/or fingers, as is done when entering patient notes into the computer.	<input checked="" type="checkbox"/> Constant <input type="checkbox"/> Frequent <input type="checkbox"/> Occasional
<b>VISION:</b>	This position requires the ability to see near and far, requires depth perception and the ability to distinguish between basic colors and shades of colors when reading doctor's order, visualizing hue of a patient's skin, read measurements such as thermometers, IV pumps, computer monitors, etc.	<input checked="" type="checkbox"/> Constant <input type="checkbox"/> Frequent <input type="checkbox"/> Occasional

<b>BALANCING:</b>	This position requires maintenance of equilibrium to prevent falling when assisting patients with activity.	<input checked="" type="checkbox"/> Constant <input type="checkbox"/> Frequent <input type="checkbox"/> Occasional
<b>BENDING:</b>	This position requires bending the body downward and forward to assume appropriate-level position to retrieve items and make contact with Patients.	<input type="checkbox"/> Constant <input checked="" type="checkbox"/> Frequent <input type="checkbox"/> Occasional
<b>KNEELING:</b>	This position requires bending legs at knee to come to a rest or kneel in order to assume an appropriate-level position for retrieval of items.	<input checked="" type="checkbox"/> Constant <input type="checkbox"/> Frequent <input type="checkbox"/> Occasional
<b>CROUCHING:</b>	This position requires bending the body downward and forward in order to assume an appropriate-level position for making contact with patient and to retrieve items.	<input type="checkbox"/> Constant <input checked="" type="checkbox"/> Frequent <input type="checkbox"/> Occasional
<b>PUSHING:</b>	This position requires using the upper extremities to press against something with steady force in order to thrust forward, downward or outward, as in pushing of a wheelchair or medication cart. Exerting up to 50 pounds of force occasionally and/or up to 25 pounds of force frequently to move objects.	<input type="checkbox"/> Constant <input checked="" type="checkbox"/> Frequent <input type="checkbox"/> Occasional
<b>PULLING:</b>	This position requires using the upper extremities to exert force in order to draw, drag, haul or tug objects in a sustained motion, as in pulling equipment from one area to the next. Exerting up to 50 pounds of force occasionally and/or up to 25 pounds of force frequently to move objects.	<input checked="" type="checkbox"/> Constant <input type="checkbox"/> Frequent <input type="checkbox"/> Occasional
<b>GRASPING:</b>	This position requires the application of pressure to an object with the fingers and palm, as in the holding of a pen to jot notes, messages, etc.	<input type="checkbox"/> Constant <input checked="" type="checkbox"/> Frequent <input type="checkbox"/> Occasional
<b>FEELING:</b>	This position requires the perception of attributes of objects, such as size, shape, temperature or texture by touching with skin, particularly that of fingertips and palms, such as palpation of a patient's skin for integrity, temperature.	<input checked="" type="checkbox"/> Constant <input type="checkbox"/> Frequent <input type="checkbox"/> Occasional
<b>SITTING:</b>	This position requires the maintenance of a seated position, as when seated to work at the computer and while participating in meetings.	<input checked="" type="checkbox"/> Constant <input type="checkbox"/> Frequent <input type="checkbox"/> Occasional
<b>CARRYING:</b>	This position requires the use of upper extremities to hold or grasp and lower extremities to move about on foot to move objects from position to position, as when carrying medications from the med cart to the patient for administration.	<input checked="" type="checkbox"/> Constant <input type="checkbox"/> Frequent <input type="checkbox"/> Occasional
<b>TASTING/ SMELLING:</b>	This position requires exposure to smells that may be strong in nature such as ammonia, wounds, feces, etc.	<input type="checkbox"/> Constant <input type="checkbox"/> Frequent <input checked="" type="checkbox"/> Occasional
<b>CLIMBING:</b>	This position requires moving from one place to another on foot, utilizing one or both legs, and/or utilizing both legs and arms to change one's position in space, either upward or downward as in when climbing the stairs between floors.	<input type="checkbox"/> Constant <input type="checkbox"/> Frequent <input checked="" type="checkbox"/> Occasional
<b>CRAWLING:</b>	This position requires bending the body downward to a position of being on ones hands and knees to assume appropriate-level position to retrieve items such as pens that have fallen under equipment.	<input type="checkbox"/> Constant <input type="checkbox"/> Frequent <input checked="" type="checkbox"/> Occasional

<b>REFLEX:</b>	Ability for rapid mental and muscular coordination simultaneously	<input checked="" type="checkbox"/> Constant <input type="checkbox"/> Frequent <input type="checkbox"/> Occasional
<b>FIREARMS:</b>	<del>Ability to use and desirability of using firearms</del> ----NOT APPLICABLE	<input type="checkbox"/> Constant <input type="checkbox"/> Frequent <input type="checkbox"/> Occasional

**PHYSICAL DEMANDS:**

- Exerting up to 25 pounds of force occasionally and/or up to 25 pounds of force frequently to move objects. This could include moving objects such as pieces of equipment and assistance in moving patients.

**EMOTIONAL DEMANDS:**

- Exposure to meeting with patients and relatives needs and expectations. Work with chronically ill patients and may observe patient suffering.

**VISUAL REQUIREMENTS:**

This position requires the:

- Ability to read printed material and distinguish colors, such as reading doctor's orders and visualizing the hue of a patient's skin, wounds, etc.
- Ability to conduct visual inspections during patient assessment
- Ability to accurately read measurements on patient-related equipment -examples include thermometers, mechanical gauges, IV pumps, computer monitors, etc.
- Ability to accurately perceive depth so as to move around work space safely and to appropriately make contact with patients.

**INTELLECTUAL/EMOTIONAL REQUIREMENTS:**

This position requires the:

- Ability to adapt to successfully perform in high stress environments with constant interruptions, emergent/critical/unusual situations, high volume urgency of issues, and interactions with a wide variety of professionals and personalities as a member of a multidisciplinary team working with sick patients.
- Ability to perform a variety of duties, changing one task to another without loss of efficiency or composure, and consistently meet department work schedule demands, including direct patient care, documentation and participation in workgroup, committees, etc.
- Ability to communicate effectively, courteously, and cooperatively with co-workers, patients, and visitors of diverse professional, education and lifestyle backgrounds.
- Ability to work independently and assume responsibility for completion of assigned.
- Ability to recognize situations beyond function(s) knowledge/training and request appropriate assistance.
- Ability to maintain confidentiality of information to protect patient rights to privacy.

**HAZARDS/ENVIRONMENTAL FACTORS:**

- Position requires exposure to communicable diseases, body fluids and/or hazardous materials.
- Position functions in a Hospital/Clinical environment and may be subject to shift work to include days, evenings, or nights.
- Frequent use of personal protective equipment to prevent exposure to hazardous materials is required.
