

TELEHEALTH

KEEPING YOU
CONNECTED

Mobile and smartphone technology is revolutionizing health care and the VA is the leader in using telehealth technology to deliver care!

A one-to-one home telehealth case manager will help you reach your goals for hypertension, diabetes, congestive heart failure, obstructive lung disorders, anxiety, PTSD, weight loss, and tobacco cessation.

Tele dermatology has a 7-day turn around time, eliminating face-to-face trips to a medical center in most cases!

We have diabetic retinal imaging and surveillance for retinopathy with a 3-day turn around time!

**Reduce Cost
Reduce Time
Improve Health**

VA exceeded 1 million video visits in 2018!

Choose VA

- **Bypass waiting rooms**
- **Minimize drive times**

In some cases, NO DRIVING! With VA Video Connect, we deliver care to you in your home, your car, on vacation, across state lines, you choose!

- **Specialist at another VA?**

Chances are we can arrange telehealth services for your next visit! Just ask Michelle Zbytowski, Telehealth Coordinator, 989-497-2500 x15453

- **Urgent care need?**

We have that covered too! When you speak to Tele-Triage, ask them if you are eligible to see our Virtual Urgent Care Provider!
