Aleda E. Lutz VA Shares Information Regarding Audiology (Hearing) Services in Alpena, Cadillac, and Saginaw

The Aleda E. Lutz VA is eager to share information for Veterans regarding Audiology Services. At this time, resources allow for limited hearing aid services in the Community Based Outpatient Clinics (CBOCs) via Telehealth technology. Our primary hub for Audiology hearing testing and treatment is in Saginaw and Cadillac, however, we continue to work to grow the remote services as the technology allows.

Telehealth/TeleAudiology is an exciting technology which allows a Veteran in Alpena with existing hearing aids to have a medical hearing aid visit with the Audiologist in Saginaw. This is accomplished through a secure video-conference. A VA technician will walk each Veteran through the whole process.

Hearing aid services for established patients are available at the Alpena CBOC, 180 N. State Avenue, and include:
- New hearing aid fitting after hearing testing has been completed
- Adjustments to Hearing Aids by appointment
- Hearing aid education with Audiologist by appointment

Services available for in-person visits in Saginaw at the VA Medical Center or Cadillac CBOC include:
- Complete hearing testing
- Taking molds of the ear for hearing aids (ear impressions)
- Hearing aid repair/maintenance

You may call the Audiology Clinic today to determine if a TeleAudiology appointment is right for you.
